BUILD PLAN ROBOLABS x POPPIES

We'll build a set of AI Agents for Poppies Studios that help you save time, get more done, and reach new audiences — by automating parts of your workflow in ways that actually make sense for how you work.

POPPIES

Clipper AI Agent

Takes a YouTube video and turns it into ready-to-post vertical clips. Clips are stored in Google Drive (or wherever you prefer).

Integrations:

Feasibility Check: Needs scoping

POPPIES

Publisher AI Agent

Posts your content to several platforms at the preferred time and frequency. Pulls from Drive and tracks everything in Notion.

Integrations: etc

Feasibility Check: Doable

POPPIES

Analytics AI Agent

Grabs your video's social analytics and drops them straight into Notion. One place to see what's working—and what's not.

Integrations: etc

Feasibility Check: Doable

BONUS

POPPIES

Remix AI Agent

Takes a short-form clip and fully remixes the characters into something entirely new.
Example: a Poppies Studios video with pixar-style animal characters.

Feasibility Check: Needs scoping

ROBOLABS x POPPIES

How we work

The B.I.T. FRAMEWORK for developing AI Agents

Phase 1:

BUILD

where we create the AI Agent in a staging environment, mirroring your systems...

...ending in **Milestone 1**
where you'll get:
Plug & Play AI Agent workflows ☑
Demo of how it all works ☑
Technical scoping and feasibility analysis ☑

Phase 2:

INTEGRATE

where we connect the AI Agent to your systems and business operations

...ending in **Milestone 2**
where you'll get:
Assisted integration with your systems and ops ☑
Robust testing to make sure it works ☑
1 month of Tuning support (free) ☑

Phase 3:

TUNE

where we assist for any issues

Ongoing partnership and support

In practice, multiple agent development may be in different stages. For example...

BUILD PLAN ROBOLABS x POPPIES

ENGAGEMENT SUMMARY

AI Agent	What does it do...	Phase 1: BUILD	Phase 2: INTEGRATE
Clipper AI Agent	Saves you hours by auto-generating highlight clips from full-length videos.	**$1000**	**$3000**
Publisher AI Agent	Keeps your content flowing everywhere, all the time, without you doing a thing.	~~**$1000**~~ $300 Special rate for POPPIES	~~**$3000**~~ $1000 Special rate for POPPIES
Analytics AI Agent	Keeps you in the loop with clear analytics updates—no manual summaries needed.	**$1000**	**$3000**
Remix AI Agent	Converts regular clips into fun AI videos that grab attention.	~~**$1000**~~ $300 Special rate for POPPIES	~~**$3000**~~ $1000 Special rate for POPPIES

HOW PAYMENT WORKS:

You pay 50% for **Phase 1**, and we get to work. →

At **Milestone 1**, we review together.
If you're happy, we move to **Phase 2**.

- If not, we refine it until we get it right
- And if it proves to be technically infeasible, we'll issue a full refund.

📌 **This pay structure is designed to be low-risk, high-value—especially while AI is still new and expectations are evolving.**

Phase 3:
TUNE
to be scoped separately depending on build complexity and if required
