Monthly Results Report Sample

[logo]

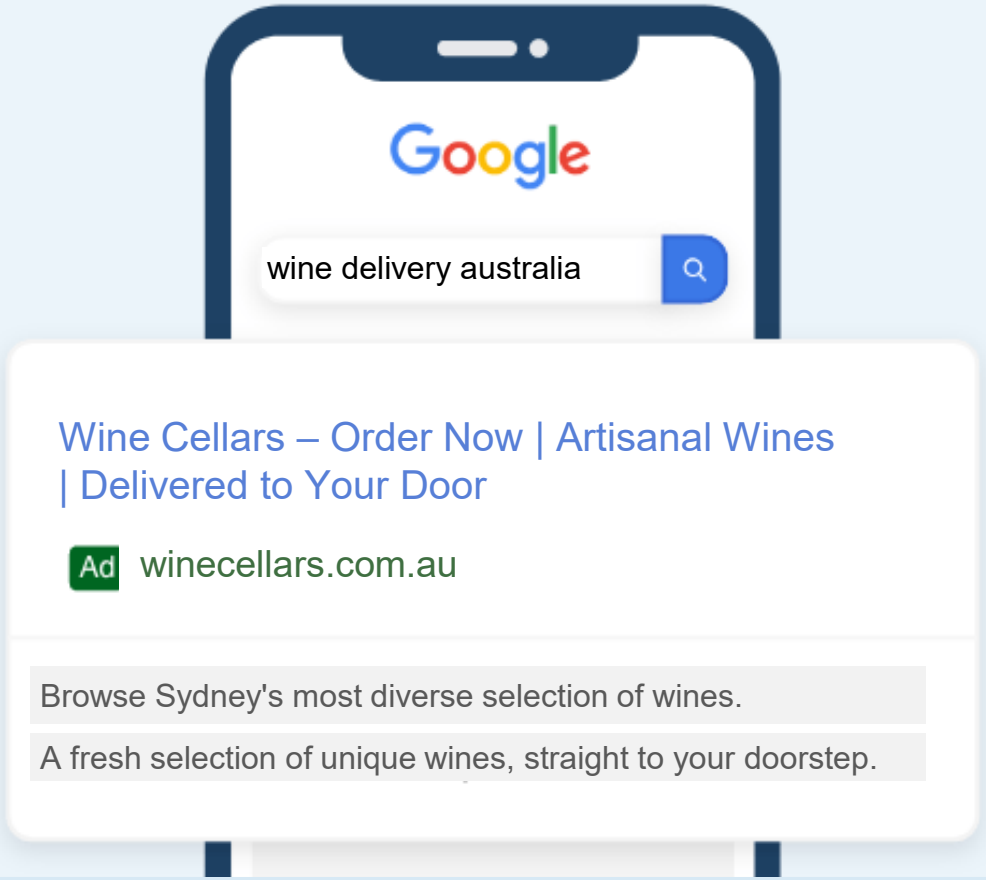

Highlights

- Ads are improving as we run the campaign longer – Google Ads has 5.4x ROAS (vs 5x last month)
- FB ads are also proving effective at 6.3x ROAS for our initial trial. Proposal is to skew more spends to FB while optimising creative
- Website seeing better funneling of customers to purchase (1.01% conversion rate vs 0.6% last report)

Google Search Ads

What did we get for our spend in Google Ads?

AWARENESS

Impressions

14,109

ENGAGEMENT

Clicks

850

6.02%

(vs 4.77% last month)

CONVERSION

Purchase

14

$4,140 value

1.7%

(vs 1.9% last month)

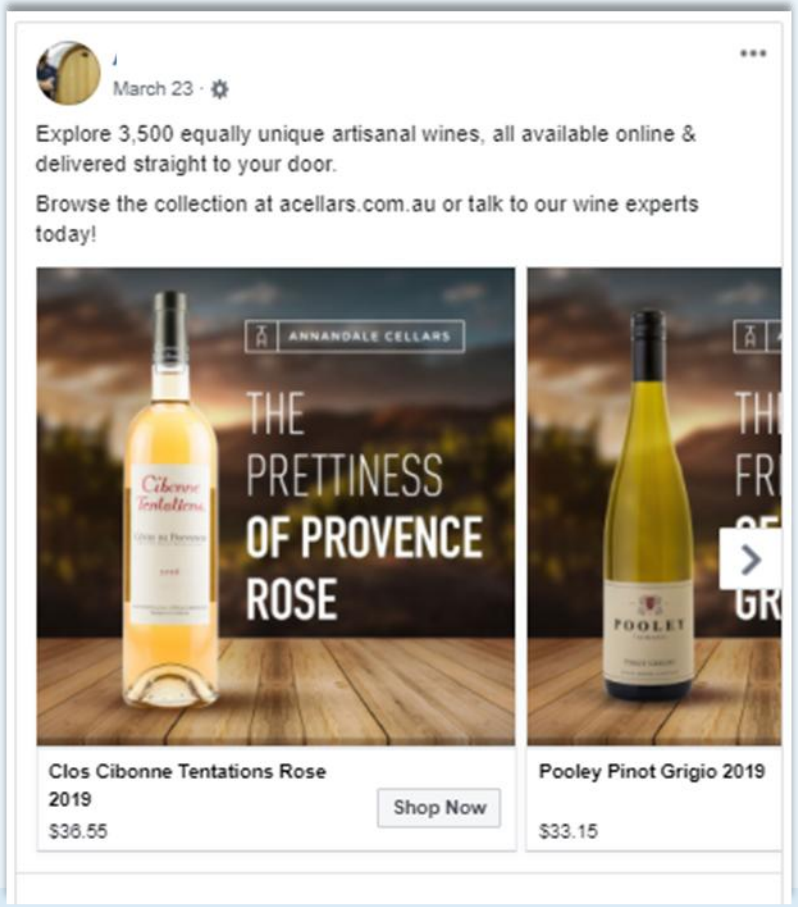

$52 per purchase (vs $54 last mo.)

5.4x return on spend (5x last mo.)

Highlights:

- ROAS remains healthy and even improved (5.4x vs 5x)
- Clickthrough Rate (CTR) also improved (6% vs 4.7%) – indicating ads are being better optimised the longer we run our campaign

What did we get for our spend in Facebook Ads?

AWARENESS

Impressions **9,732**

ENGAGEMENT

Clicks **178**

1.8%

CONVERSION

Purchase **2**

$861 value

1.1%

$68 per purchase

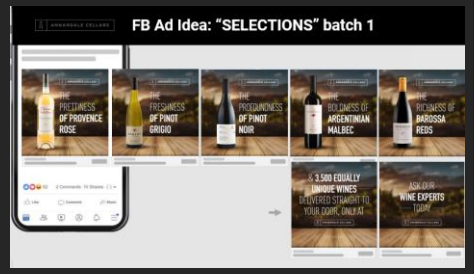

6.3x return on spend

Highlights:

- Great ROAS at 6.3X driven by the ‘Selections’ ad
- CTR at 1.8% is above average (vs 1% avg). We can still optimise using learnings from each creative

FB ads breakdown:

Our Selections ad (carousel format) drove the sales – we will proceed with this format while optimising creative

	Spent	Revenue	ROAS
Selections (batch 1)	$43	0	**Na**
Selections (batch 2)	$35	$861	**24.6x**
Explore	$58	0	**Na**

Amount spent is dynamically allocated by FB's algorithm

Comparing Google & FB

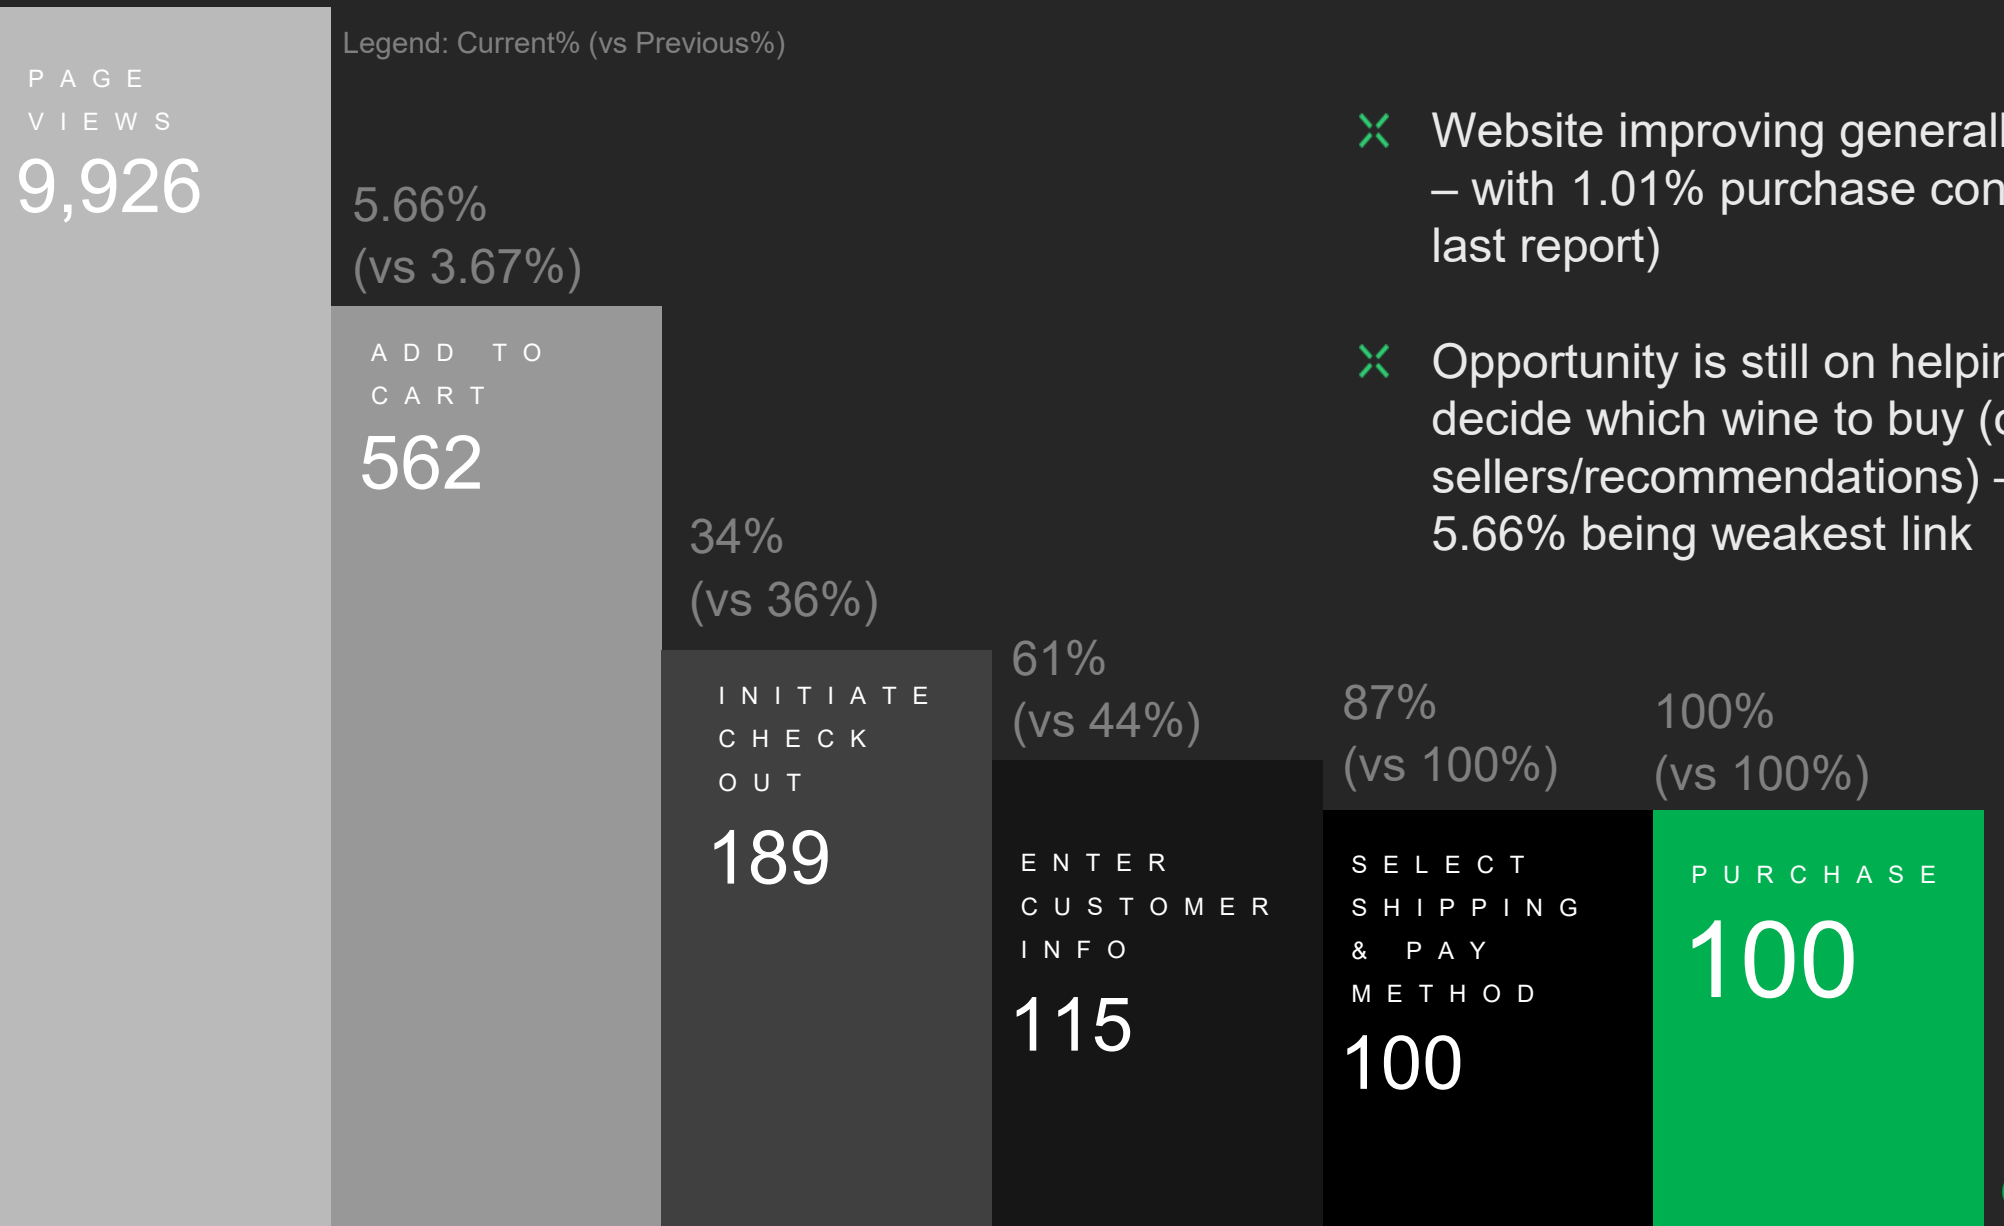

Great ROAS for both FB (6.3x) & Google Ads (5.4x). Recommendation to proceed with higher spend in FB for coming weeks given higher return

	Actualised (Feb to Apr 13)			**Proposed** (Apr 13 –May 15)
	Spent	Revenue	ROAS	Reco Spend
Facebook	$137	$861	**6.3x**	$350 (60%)
Google Ads	$773	$4,140	**5.4x**	$240 (40%)

Forecast total advertising spend for three months: $1,500 ($500/mo) + $150 free ad credit = Total of $1,650

Website

How is our site performing in funneling customers to purchase?

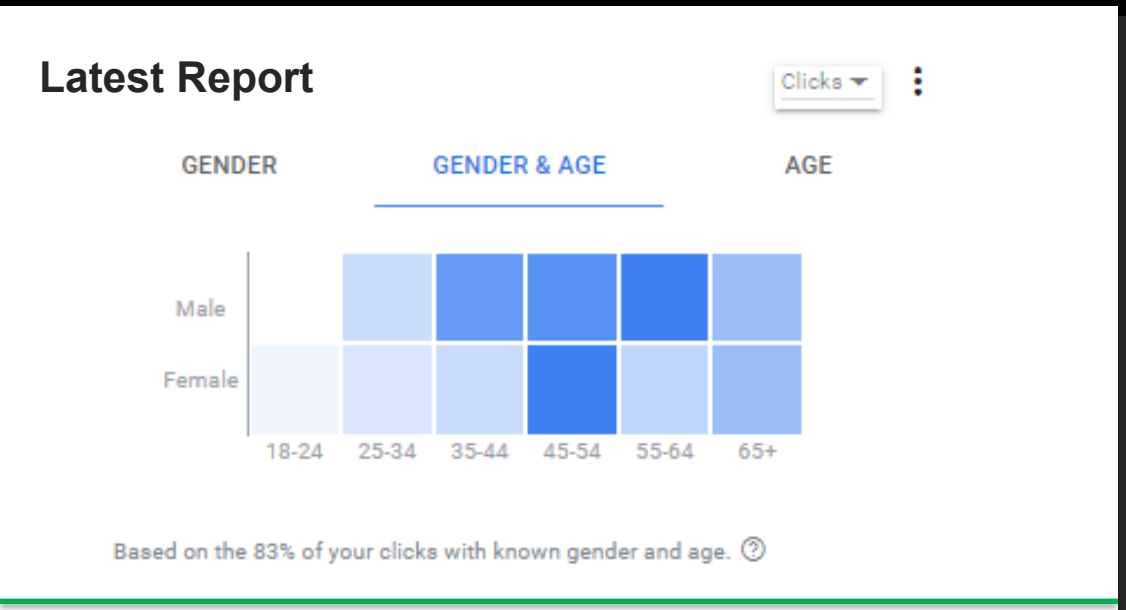

- Website improving generally across the funnel – with 1.01% purchase conversion (vs 0.6% last report)
- Opportunity is still on helping customers decide which wine to buy (or featuring best-sellers/recommendations) – given ATC% of 5.66% being weakest link

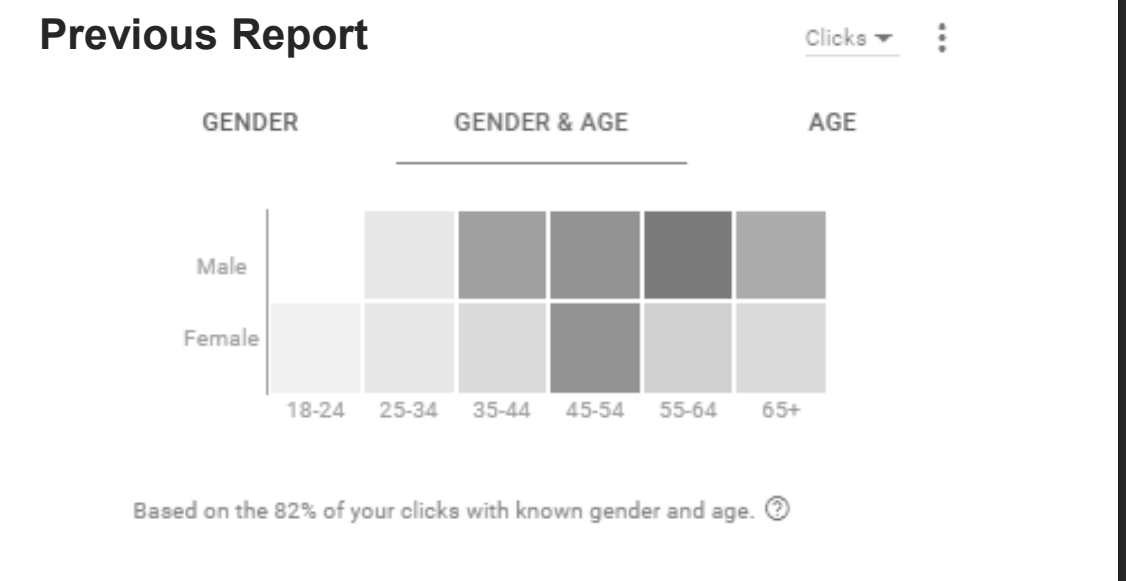

Period covered: Mar 13-Apr13, 2021 when funnel functionality has been coded in

What insights can we get from our customers?

Latest Report

Previous Report

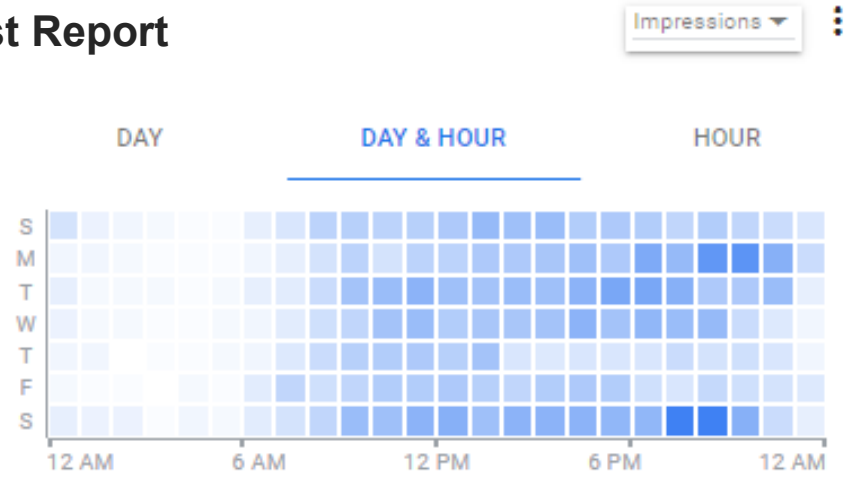

ON GENDER & AGE

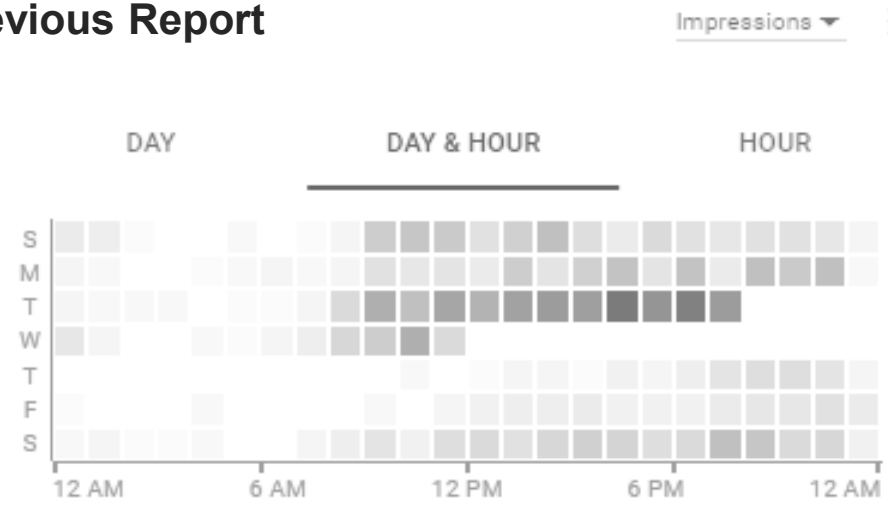

- **Not much change vs previous report**
- Most of the people who engaged with our ads are Male aged 35-64
- Within Females, the 45-54 age group also engaged with our ads the most

What insights can we get from our customers?

Latest Report

Previous Report

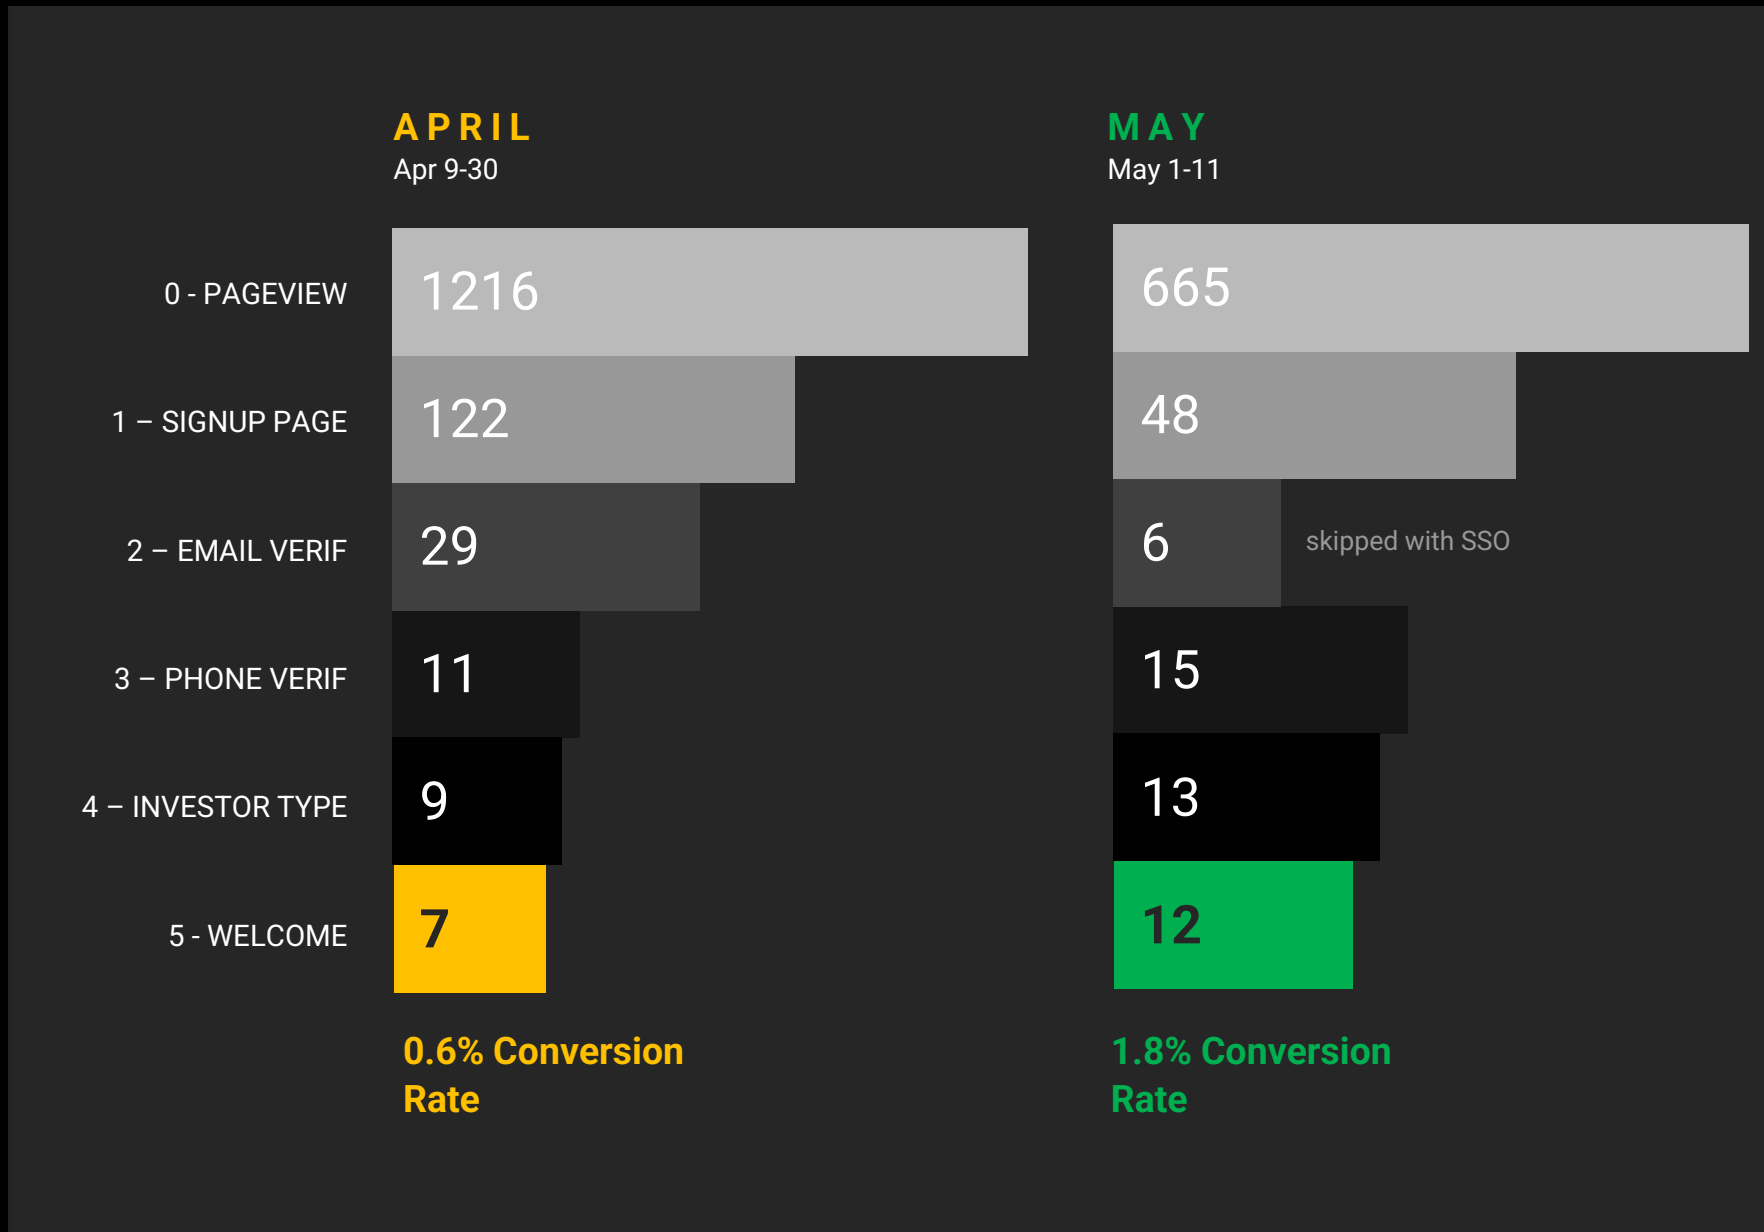

ON DAY & HOUR

- **Our ads now appear more regularly across days**
- ‘Primetime’ is still within evenings from 5-9pm though

Site Conversion Funnel, before & after SSO

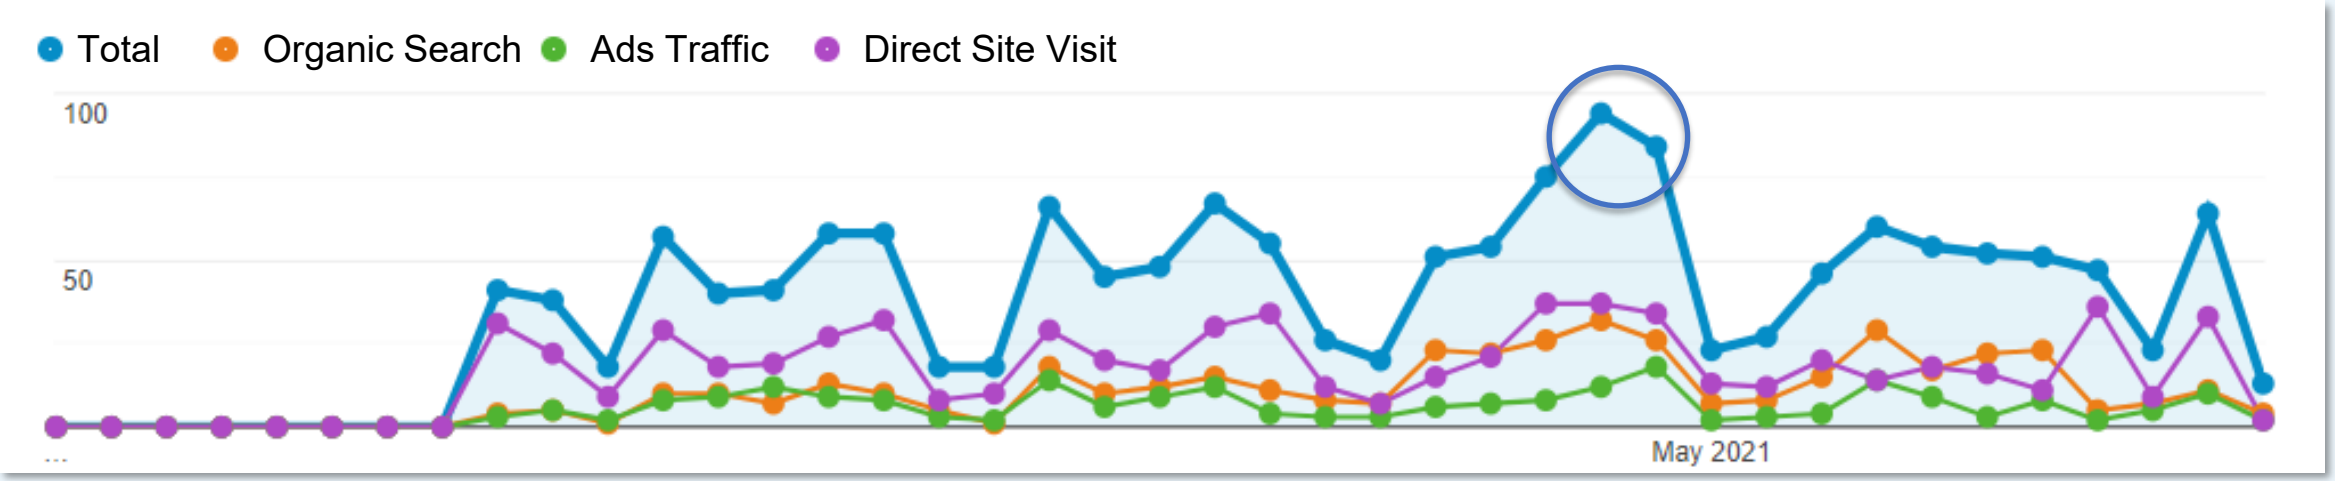

Clear improvement in site funnel conversion rate from April to May with the SSO option: From **0.6%** to **1.8%** conversion (3x improvement)

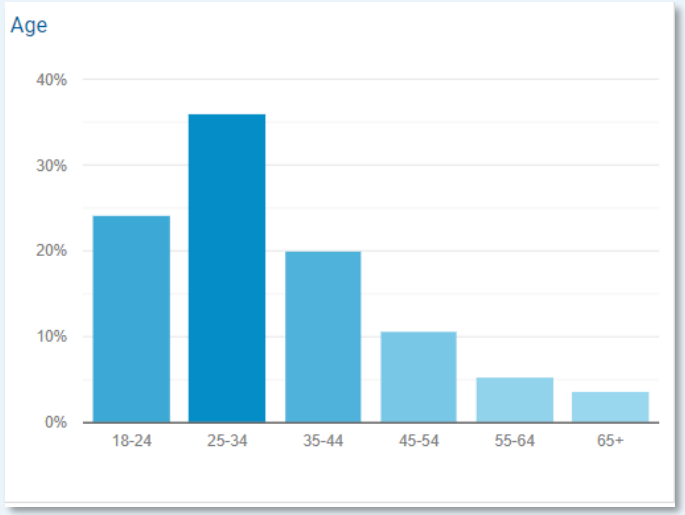

Site traffic updates

Daily users averaging at **50 on weekdays, 20 on weekends** | Notable spike on users end of April (100/day)

Healthy ratio of **organic-to-paid traffic (75-25),** with direct site visits forming the biggest traffic source.

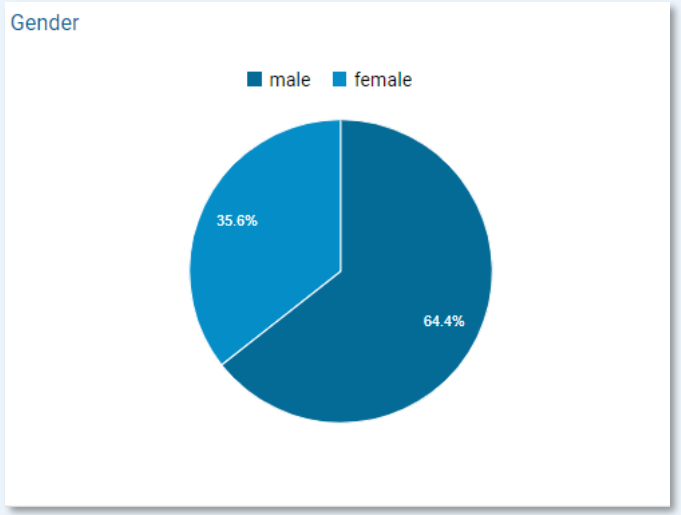

User insights – Age and Gender

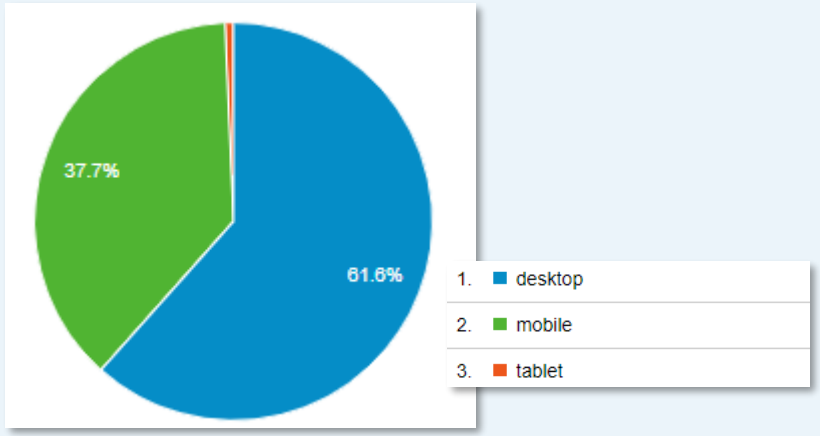

AGE
Our userbase are mostly millennials aged 25-34

Side insight: 25-34 also have the highest session duration at 11m20s (vs 6m58s avg)

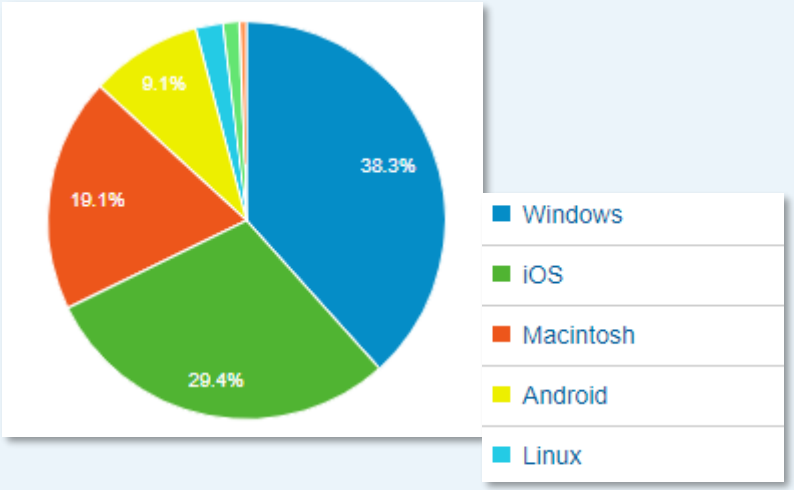

GENDER
Mostly males at a 65-35 male-female ratio

User insights – Device and OS

DEVICE TYPE USED
Mostly desktop at 60-40 desktop-mobile ratio (unique for Stropro, as sites usually have more users in mobile)

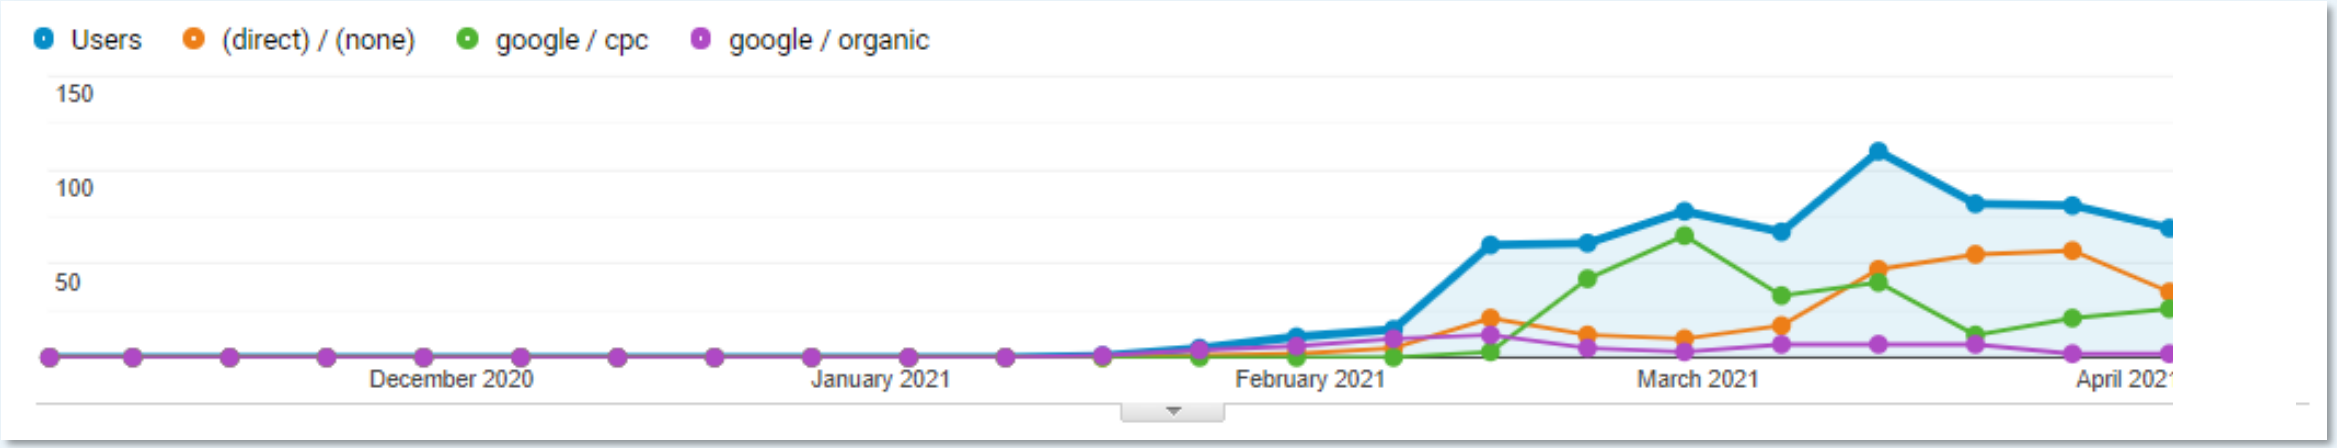

OPERATING SYSTEM
50% Apple (iOS+Mac)
50% Other OS (Windows+Android+others)

Are we getting traffic to our website?

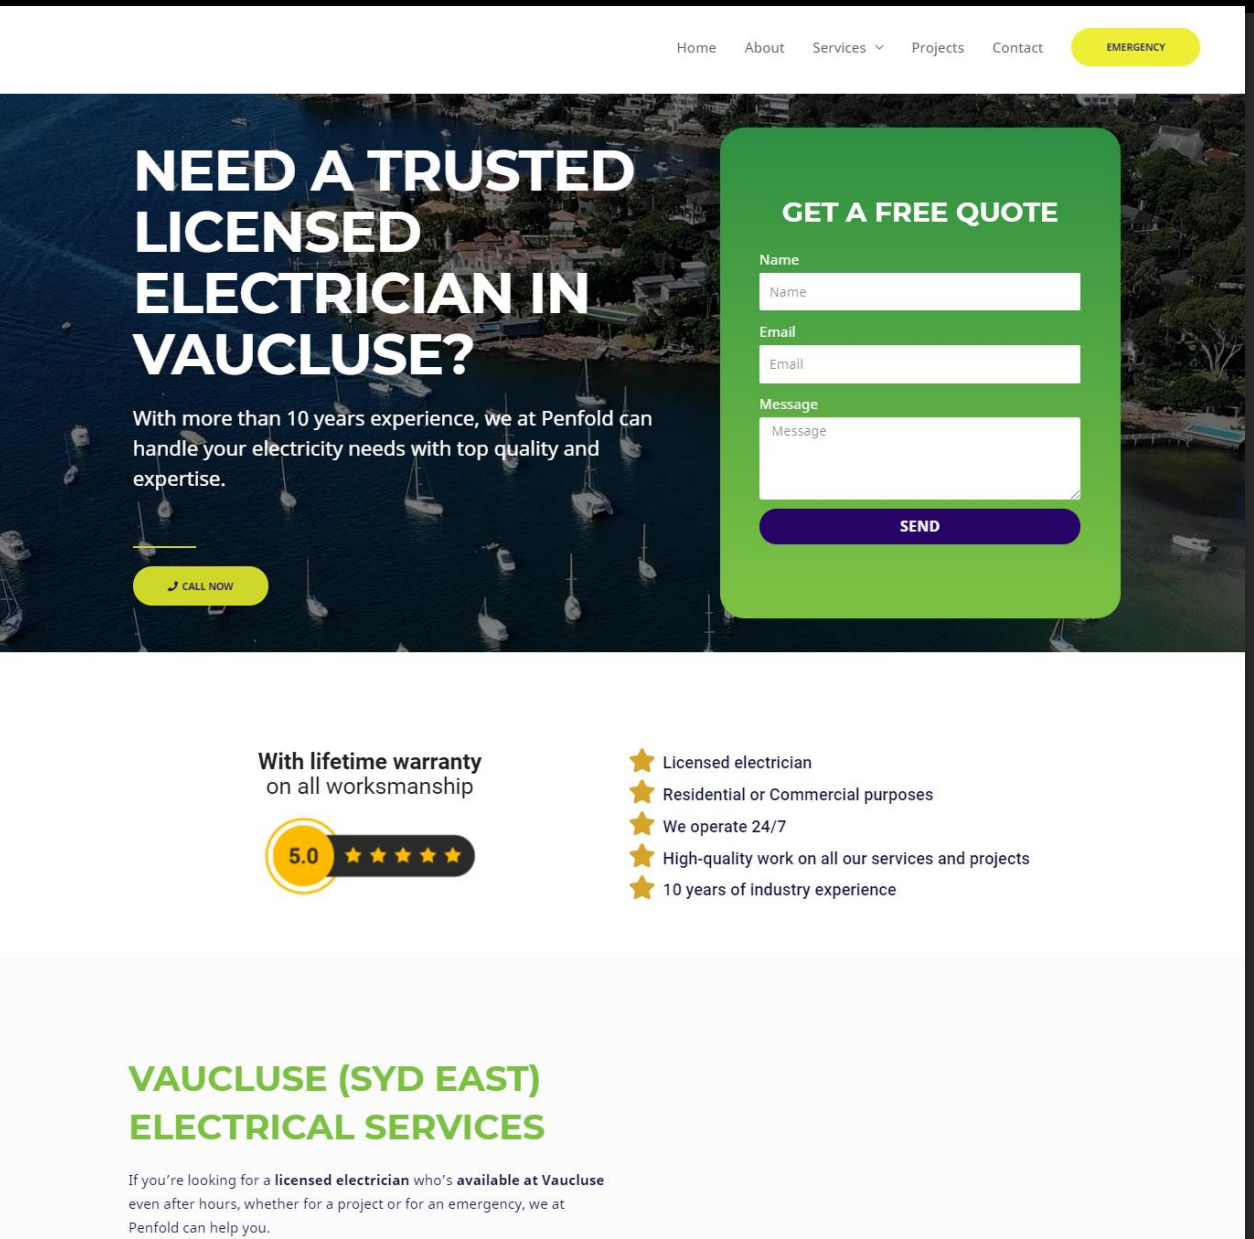

Our SEO efforts and our search ads are bearing fruit:

- We're tracking at an average of 80 unique website users weekly
- Traffic initially brought on by our Google Ads launch, but slowly driven more by Direct Site Visits as we build awareness

Week-by-week tracking of website unique users, by source

Initiative: Suburb-specific landing pages

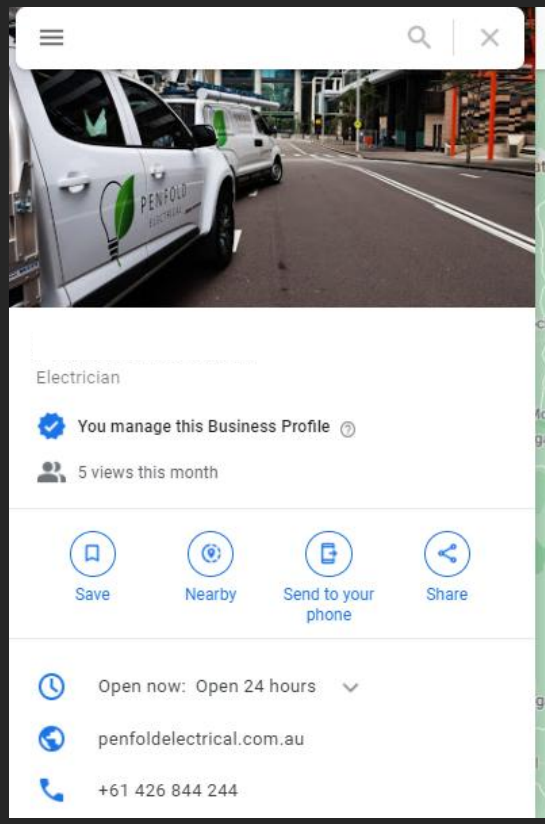

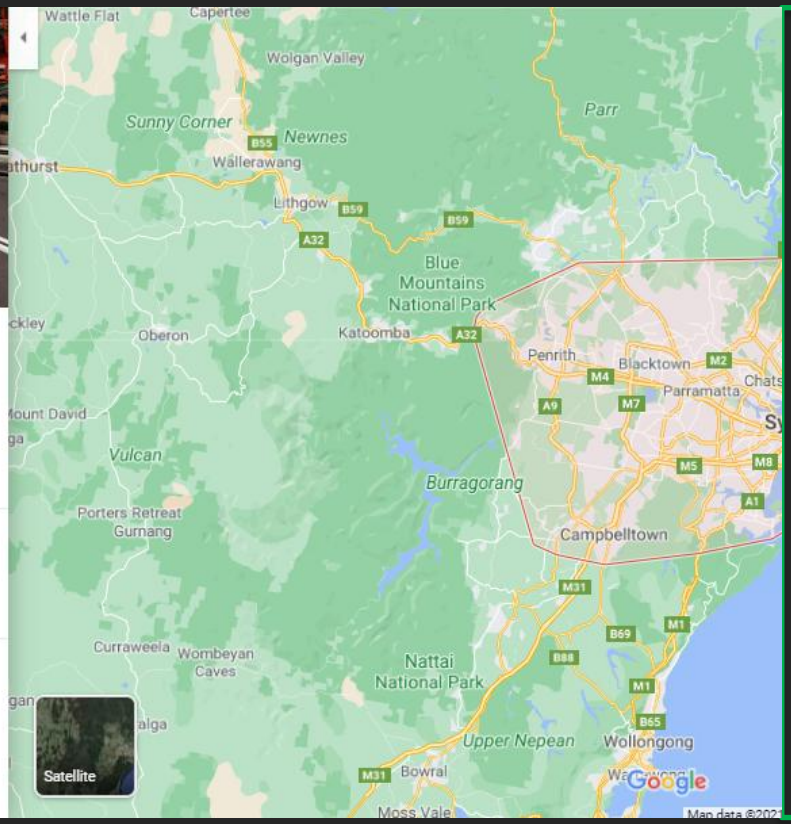

- New landing pages to cater to people searching for "electricians in [suburb]"
- Can also be used to further optimise Google Ads to serve as new landing pages

Any input on content/wording? Let us know and we'll fix it

Google My Business

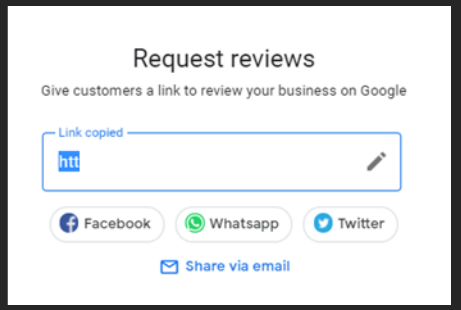

Update: Google My Business listing is now live!
Recommendation is to get reviews from every customer

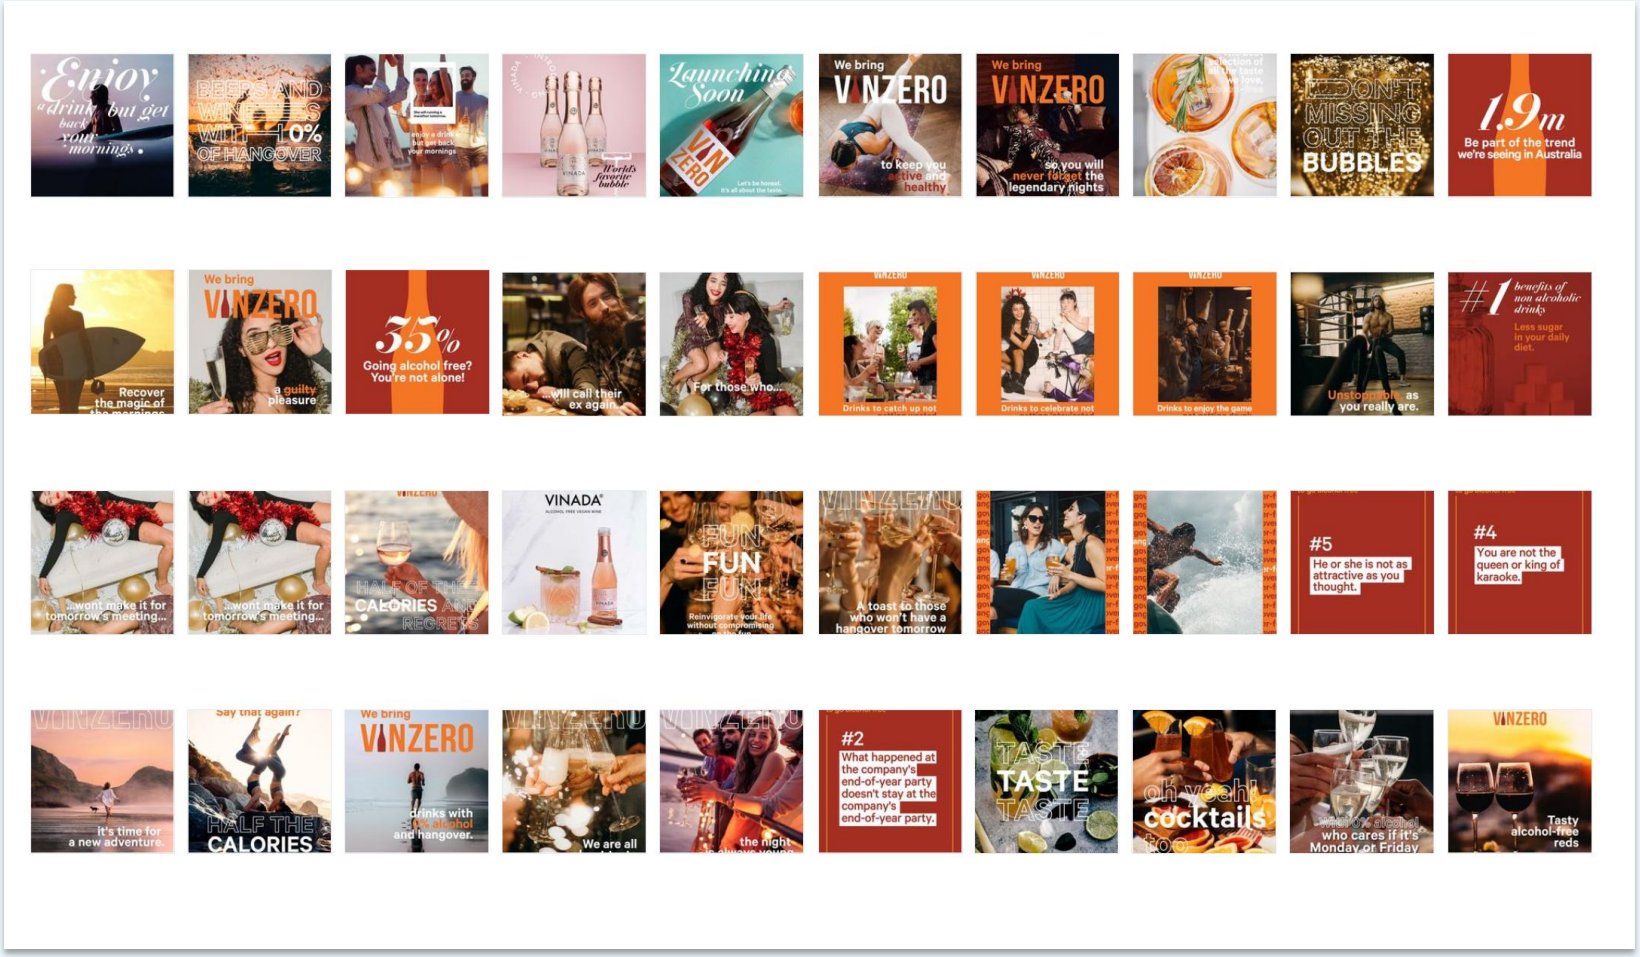

- Ask for reviews immediately after work completion
- Can be via QR code or shortlink (see appendix for toolkit)

39 brand posts ready to go

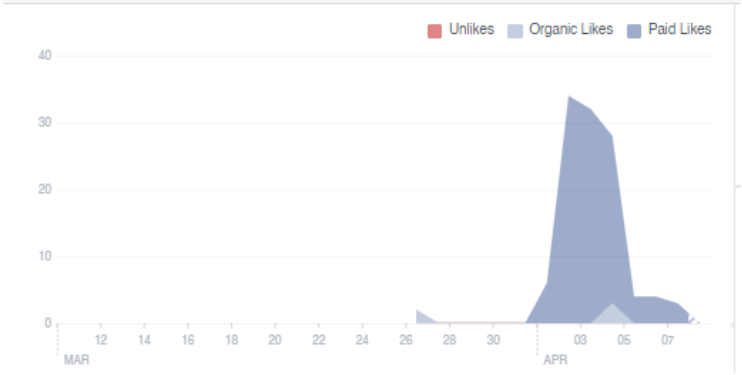

- 16 already live and cross-posted in Instagram and Facebook
- We went ahead and already made 23 more (with 14 more creatives to be made)
- Remaining posts to be scheduled for April to May posting

LIVE	16
READY TO POST	23
TO CREATE	14
TOTAL	**53 posts (24*2mos + 5 bonus)**

Where did our followers come from?

Facebook likers

- FB Likes largely driven by paid boosting; expected given FB doesn't excel in organic reach (i.e. no customer behavior of explore, hashtags)

SOURCE	FB Likers	Cost/Like
Boosting	108	$1.48
Organic	35	na

Instagram followers

- A healthy mix of followers from paid boosting and organic reach. Given smaller cost/follow for IG, good to consider skewing advertising spend in favor of Instagram.

SOURCE	IG Followers	Cost/Follow
Boosting	174	$0.93
Organic*	109	na

*partially driven by Kicksta engagement
